

REMARKS

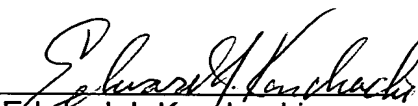

Claim 23 has been amended to avoid dependency in the system claim on a method claim which, in prior recent applications, an Examiner has indicated such format to be improper.

All claims are now believed to comport with established U.S. practice and favorable consideration and prompt allowance of the application are respectfully requested.

Respectfully submitted,

MILES & STOCKBRIDGE P.C.

**CLAIM 23 SHOWING CHANGES MADE VIA BRACKETING AND
UNDERLINING:**

- 1 23. (Amended) A system [for implementing the method of claim 14,]
2 for internationalizing a mark-up document which has a localization tag
3 adapted to be detected by a localization tool and in which localization
4 information associated with the tag is retrieved and the localization tag in the
5 document is replaced with a localized value in a translational file associated
6 with the localization information, said system comprising:
7 a localization tool for [performing the] detecting the localization tag
8 and retrieving [steps] localization information associated with the tag; and
9 a storage unit which stores the localized value in a translation file.
